PROFILE SUMMARY

I'm a driven Full Stack Developer with 1.5 years of experience in building dynamic web applications. I excel in crafting user-friendly interfaces with React and have strong backend skills with Node.js, Express, and MongoDB. I also specialize in creating modern, responsive designs with Material-UI. I'm eager to apply my skills and passion to contribute to exciting projects and continue growing in a challenging role.

PROJECTS

E-commerce

🔗 https://payment-order-e-commerce-web-4p7d.vercel.app/

A platform for online shopping with a user-friendly interface.
